

Dear

Sexual violence is rampant.

- The news is flooded with survivors accusing people in power of sexual assault and harassment.
- Nearly 40 percent of women living in New Jersey, over 1.3 million, reported experiencing sexual assault in their lifetime.

Please vote YES on the following:

- A5112 reauthorizing the New Jersey Task Force on Campus Sexual Assault. It is crucial that the recommendations in the report *Addressing Campus Sexual Violence – Creating Safer Higher Education Communities, June 2017* be implemented.
- A5031 requiring the Attorney General to conduct an audit of untested sexual assault kits.

New Jersey must continue to be a leader in preventing sexual violence and protecting survivors.

Thank you,
